PINEGAR
LIMOUSIN

A big thank you goes out to all the participants in our 1st-Ever Online Limousin and Lim-Flex Bred Heifer Sale. We appreciate the support of all interested parties in making this first-ever event something special. As always, we, at Pinegar Limousin, believe in common sense and planned genetics backed with the best customer service we can supply. Many of our loyal customers along with several new ones showed our "AUTO" team that their hard work for the last 27 years has been well worth it.

Due to the high demand for more bred heifers, we have decided to offer 15 more first-calf heifers that are a sort straight from the replacement pen. We pride ourselves in raising the best cattle possible and are recognized as one of the national's largest seedstock suppliers. So the 1st-Ever Online Sale will be "CONTINUED." It will be held at www.pinegarlimousin.com from 7 a.m. to 7 p.m. Tuesday, September 12, 2107.

Sincerely,

Ed Pinegar

PINEGAR LIMOUSIN 1ST-EVER ONLINE SALE...CONTINUED

Due 9.22.17 to
AUTO Lode Up 137B (HP/HB)

- This powerfully constructed female has the mass and dimension to make powerful herd sires and the stoutness of structure to withstand the test of time, however she still has a long and elegant look through her front end. She has all the right pieces to appeal to the most critical of evaluators.
- This mating is one that we were excited about when we put it on paper and we were even more excited when they started to hit the ground. The PVF Insights make such dynamic Lim-Flex cattle that have superior phenotype and excel in CED and carcass traits.
- 408C is double-digits Calving-Ease, in the top 4% for YW, top 1% for REA, top 10% for MB and SMTI. Truly a data set that has tremendous flexibility and value.

Due 9.22.17 to
AUTO Gunn Point 192Y (HP/B)

- You know if one around here is named Chevy, she must be deserving. Quality is not a question with this particular female as she is ideally designed from one end to the other. She has looked like a brood cow in the making since day one. She is particularly maternal through her front one-third, has a tremendous amount of sweep to her lower rib and steps down on a great deal of foot and bone. We love her lines and levelness down her top and out of her hip.
- RB Tour of Duty was originally injected into our AI/ET rotation to infuse outlier growth numbers, as time goes on we are realizing his daughter are making exceptional females and tremendous replacements. This homo/homo daughter of AUTO Rebeca 292S has a hybrid pedigree that will rival any in the business.
- On paper, 477C ranks in the top 3% for YW and MK, top 5% for TM, as well as at the top 20% for MB and SMTI.

AUTO Lead On 107A (P/HB)

- If this one doesn't catch your eye, we may have to readjust your monitor. Lecinda is absolutely mind-blowing on the profile, and when she stops and strikes a pose she will take your breath away. This one deserves a permanent home in the front pasture, so all the neighbors will see her and your appreciation for quality.
- PBRS American Honey 344A, who is sired by the once national champion DHVO Deuce 132R, and is one of the finest to be produced in the P Bar S program, was the highlight of their 2014 sale. She is a female we have great hopes for in the future based on the performance and quality transmitted in 607C.
- This female is numbered up to be herd-sire producer, she is in the top 5% for WW and YW.

Due 9.12.17 to
AUTO Lead On 107A (P/HB)

- In today's society we tend to think of the term "Complicated" with negative connotations, however this female is complicated in the way she ties together pieces that don't usually come in one package. She is moderate framed, deep centered and chisel fronted; three traits that aren't easily found together in the Limousin breed.
- AUTO Complicated 246C is a purebred female coming from one of the most sought-after cow families in the history of the Limousin breed. ELMW Ginnie P58G is the maternal grandam to over 300 cattle, being the dam of Carrousel Peaches and Carrousel Pina Colada earns her a place in the Limousin record books. 246C is a direct daughter of Carrousel Peaches 4330P and is sired by MAGS Wazowski, the high growth, premium phenotype sire from the Magness program.
- With a REA EPD of 0.85, she ranks in the top 4%.

- Just because this is an online sale, doesn't mean you aren't welcomed to stop by the farm and take a look at these amazing females! 646C is not only worth stopping, she is worth the drive from about anywhere. If you are like us and have a deep appreciation for fault-free and functional cattle, then she is your kind.
- For several years now, AUTO Neva has produced lead-off bulls in the front end of our highly selective bull offering, as well as premium replacement females, such as AUTO Jetta 473A, the direct dam of 646C.
- This females EPD profile ranks her among the breed's elite for MK, TM and REA; she is a trait leader for all three!

Due 9.24.17 to
AUTO Cruze 132X (HP/HB)

- We aren't terribly superstitious here at Pinegar Limousin, however when the number 292 comes up, she better live up to it and follow in the footsteps of one of the very finest ever created in Springfield, MO, AUTO Rebeca 292S. 292C is definitely one of the premier females coming out of our calf crop. Ideal in her conformation, sound structured and easy fleshing, she is certainly the cowman's kind.
- The Deuce x Red Robin combination has created spectacular individuals over the years, cattle that have hung banners, led off bull sales and are designed in a timeless manner. An opportunity to invest in this mating is one that should not be overlooked.
- 292C has been the kind we aim to produce, she hit the ground at 64 lbs., weaned at 788 and crossed the scales at a year right at 1,075 lbs.

- Stout, easy keeping and RED! This female does so much right from every evaluation standpoint. She is everything that made Limousin cattle great.
- There are very few Lim-Flex females with Fullbloods, Purebreds, Lim-Flex and Angus in their immediate pedigree. This precise blending of genetics should provide an optimal hybrid result. Not only does she have this variety on her paper, she has some of the very best representatives such as JCL Lodestar, Amy Jo DHAN, N Bar EXT and Harvest Olympus. A true student of the industry will recognize these and have great success producing the next generation out of the polled, red female.
- AUTO Cheyenne 639C has strong MB and \$MTI numbers which predict strong carcass values.

PINEGAR LIMOUSIN 1ST-EVER ONLINE SALE...CONTINUED

Due 10.27.17 to
AUTO Real Deal 150B (HP/HB)

- This growth-oriented female has recently come into her own and impresses us each time we go out into the sale pasture. We feel that her length and dimension will transmit and add value to the cowherd.
- AUTO Chay is a 43% Lim-Flex daughter of EXAR Blackbird, the leading Angus donor we acquired from Stowers in Texas who is a Connealy Consensus 7229 daughter. She is homozygous polled, homozygous black and paternally traces back to MAGS Yip and the breed icon AUTO Rebeca 292S.
- With data ranging from a 10 CED to 115 YW and ranking in the top 15% for MB and SMTI, AUTO Chay 286C definitely has data to work with. It is hard to make ones this good with numbers this solid.

- We love level-hipped cattle with a lot of lower rib sweep to them, this female does just that and does it well!
- EXAR Classen 1422B has sired some of the very best Angus and hybrid cattle in the show cattle industry in recent years. The cattle excel in terms of eye appeal, structural correctness and performance without sacrificing marbling. 230C is a granddaughter of the now deceased legend, MAGS Manuela.
- With a 1.00 REA, AUTO Dream Girl is a trait leader in the breed.

AUTO First Class 116A (P/HB)

- AUTO Cala 289C is smooth patterned, nicely balanced and structurally correct.
- This high percentage Lim-Flex is an absolute rock star in terms of growth and performance. She ranks in the top 10% for WW and YW EPDs, as well as being in the top 15% for TM and REA. To say that her pedigree is full of elite Limousin cattle would be an understatement; nearly every animal on her paper is a household name in either the Angus or Limousin population.
